6. Fair opportunity will be managed in eBuy, which is the mandatory, sole system for OCOs to issue task order solicitations. The Contractor will only be included in and allowed to compete under the CLINs (NAICS Codes) where they (or their proposed team, as applicable) represented (and subsequently re-represent) as a small business concern for the corresponding size standard at the time of offer submission in accordance with (IAW) 13 CFR 121.404, and are otherwise eligible under the socioeconomic contract vehicle. These changes are highlighted for awareness in the Amendment 0008 Conformed Copy.

Proposal submission capability will go live in the OASIS+ Submission Portal (OSP) on January 12, 2026.

The Revolutionary FAR Overhaul updates currently apply to the FAR. Some GSAR/M provisions and clauses may still reference outdated FAR clauses until conforming updates are issued. In the event of a conflict between the FAR (including RFO deviations) and GSAR/M text, the FAR presides.

System updates may lag policy updates. The System for Award Management (SAM) may continue to require entities to complete representations based on provisions that are not included in this solicitation. Contracting officers will rely on representations from offers based on provisions in the solicitation. Entities are not required to, nor are they able to, update their entity registration to remove these representations in SAM.
