

GENERAL INFORMATION:

Document Type: Combined Synopsis Solicitation

Solicitation Number: 36C78626Q50083

Title: HVAC and BMS Maintenance Services at Calverton National Cemetery

Post Date: 1/22/2025

Original Response Date: 2/13/2026 at 4:00 pm EST

Applicable NAICS: 811310 – Commercial and Industrial Machinery and Equipment (except Automotive and Electronic) Repair and Maintenance

PSC: J041 – Maint/Repair/Rebuild of Equipment – Refrigeration, Air Conditioning, and Air Circulating Equipment

Set Aside Type: Small Business (SB)

Issuing Contracting Office: Department of Veterans Affairs
National Cemetery Administration, Contract Services
18434 Joplin Road
Triangle, VA 22172

Place of Performance: Calverton National Cemetery
210 Princeton Blvd
Calverton, NY 11933

Attachments: A – Statement of work (pg 9)
B – Past Performance Questionnaire (pg 15)
C - Price Schedule (pg 16)
D – SCA Wage Determination 2015-4157 Rev. 30 (pg 19)

This is a combined synopsis/solicitation for commercial services prepared in accordance with part 12. This announcement constitutes the only solicitation. Quotes are being requested and a written solicitation will not be issued. Solicitation number 36C78626Q50083 is issued as a Request for Quotation (RFQ) for Heating, Ventilation and Air Conditioning (HVAC) and Building Management System (BMS) maintenance services.

This solicitation incorporates provisions and clauses in effect through Federal Acquisition Circular (FAC) 2025-06 with an effective date of 10/01/2025.

NORTH AMERICAN INDUSTRIAL CLASSIFICATION SYSTEM (NAICS) CODE:

The (NAICS) code for this procurement is 811310. The business size standard in millions of dollars is \$12,500,000.

PRICE SCHEDULE: See Attachment C.

DESCRIPTION OF REQUIREMENT: See Statement of Work at Attachment A.

CONTRACT DATES: The period of performance will be a twelve-month base year and four, one-year options, if exercised.

DELIVERY/ACCEPTANCE LOCATION: Delivery will be FOB Destination and the delivery and acceptance locations will be at the Place of Performance address listed on page 1 of this Combined Synopsis/Solicitation.

CONTRACT TYPE: The U.S. Department of Veteran Affairs, National Cemetery Administration, anticipates the award of a Firm Fixed Priced (FFP) contract for Heating, Ventilation and Air Conditioning (HVAC) and Building Management System (BMS) maintenance services.

This notice shall not be construed as a commitment by the Government to ultimately award a contract, nor does it restrict the Government to a particular acquisition approach. This solicitation and the subsequent award is subject to the availability of funding.

PRE-QUOTE SITE VISIT: Quoters are urged and expected to inspect all sites where services are to be performed and to satisfy themselves regarding all general and local conditions that may affect the cost of contract performance. In no event shall failure to inspect one or all sites constitute grounds for a claim after contract award. If you plan to conduct a site visit/inspection of Calverton National Cemetery, there is a site visit scheduled for this requirement on **Friday, January 30, 2026 @ 9:00 a.m. EST**. *No additional site-visits or individual tours will be scheduled.

Interested prospective quoters should attend the scheduled site visit. Please meet Patrick Herring outside the front of the Administration building.

All questions resulting from the site visit should be sent to the Contracting Officer by following the instructions in the “RFQ QUESTIONS” section of this Combined Synopsis Solicitation. The Contracting Officer will then issue an amendment(s) answering all questions that were received on time (by the question due date). Potential Quoters are responsible for checking SAM.gov for issued Amendments to this Combined Synopsis Solicitation.

INSTRUCTIONS TO QUOTERS: All prospective Quoters are required to have an active Federal Government contracts registration in System for Award Management (SAM) website when they submit a quote, and at time of award. If a Quoter does not have an active/current registration with SAM.gov prior to the solicitation close date, and at time of award, it will result in the company being considered non-responsive.

RFQ QUESTIONS: All questions regarding this solicitation are to be submitted to the Contracting Officer, via email, no later than **4:00 pm EST, Tuesday, February 3, 2026**. **No questions will be accepted after this time.** Questions pertaining to this announcement shall be sent by email to: sarah.poole1@va.gov. Telephone inquiries will not be accepted. Amendments will be issued to answer all questions that are submitted.

RESPONSE TO REQUEST FOR QUOTATION (RFQ): Quotes are due to the Contracting Officer no later than **4:00 pm EST on Friday, February 13, 2026**. Email responses to sarah.poole1@va.gov. Responses to this announcement may result in a Firm Fixed Priced (FFP) contract. The Government intends to make award without discussions. **It is the responsibility of the Quoter to submit their best pricing at the time quotes are due.**

All information submitted in response to this announcement is voluntary and the Government will not pay for information provided nor will it compensate any respondent for any cost incurred in developing information provided for the Government. Quoters are responsible for obtaining any and all amendments or additional information concerning this announcement at [SAM.gov](https://www.sam.gov). Failure to provide a signed amendment as part of the quotation submission will result in being considered ineligible.

QUOTATION FORMAT AND SUBMITTAL INFORMATION: Quotes must be submitted on company letterhead in Adobe pdf platforms and submitted by email to the individual listed in the Response to Request for Quotation (RFQ) section of this Combined Synopsis Solicitation. Quoters are hereby advised that any Quoter-imposed terms and conditions which deviate from the Government's terms and conditions, shall render the Quoter's quote non-responsive, and thus ineligible for award.

All quotes shall be submitted in four (4) different documents for each volume listed below. Each title shall include the appropriate Volume. The Volumes are as follows:

Volume A – Administrative

The Quoter shall include the following in Volume A:

- Legal Business/Company Name (as listed in SAM.gov)
- Business Mailing Address
- SAM Unique Entity ID (UEI)
- Point of Contact
- Telephone Number
- Email Address
- Signed and dated copy of each Amendment, if applicable. Failure to comply shall result in the Quoter being considered non-responsive and thus ineligible for award.
- Completed copies of the following provisions **are required to be submitted as part of the quote:** (Failure to comply shall result in the Quoter being considered non-responsive).
 - FAR 52.203-18 Prohibition on Contracting with Entities that Require Certain Internal Confidentiality Agreements or Statements – Representation (if disclosure is required; otherwise, no submittal needed) (JAN 2017)
 - FAR 52.223-9 Estimate of Percentage of Recovered Material Content for EPA-Designated Items (MAY 2008) (*See page 3 of SOW for item to be listed)
 - FAR 52.240-90 Security Prohibitions and Exclusions Representations and Certifications (if disclosure is required; otherwise, no submittal needed)

***NOTE** – It is the responsibility of the Quoter to ensure the required entity-level representations and certifications are completed on SAM.gov, and that **all other (procurement specific & by submission of the Offeror) required representations and certification provisions are submitted with their quotation. (Those listed above must be submitted with the quote, unless disclosure is not required.)**

Volume B – Technical Proposal

Quoter shall include the following in Volume B in accordance with the Technical Qualifications criteria listed in the Evaluation Process section of this combined synopsis solicitation:

1. Previous experience in providing commercial HVAC maintenance services as referenced in the Statement of Work.

2. Contractor or subcontractor shall provide proof of the following documentation:
 - HVAC technician has EPA Section 608 Technician Certification – Type II (for high pressure refrigerants) or Universal certification.
 - Delta Controls partner/Authorized System Integrator (ASI) to access Delta Proprietary software (enteliWEB) certification or registration number.
 - Technician with Suffolk County (NY) Restricted Plumber's License (oil burning equipment classification) or equivalent training and experience.

Volume C – Past Performance

Quoter shall include the following in Volume C:

- Past Performance Questionnaires (Attachment B).

Volume D – Pricing

Quoter shall include the following in Volume D:

- Proposed pricing shall be submitted on the included Price Schedule (Attachment C).

EVALUATION PROCESS: The Government intends to award a Firm-Fixed Price Contract resulting from this Solicitation to the responsible Quoter whose quote provides the best benefit to the Government, price and other factors considered. Quotations will be evaluated by performing a comparative evaluation in accordance with FAR 12.203(c)(2) to determine which response represents the “best” as a whole.

Quotations will be evaluated by performing a direct comparison of one Quotation with another in a uniform manner to determine which Quotation provides the government with its needs, as identified in the RFQ. The government reserves the right to consider a response that quotes more than the minimum and select that response if it provides a benefit to the government. The government has the discretion to accept other than the lowest priced quote that provides additional benefits. The government also has the discretion to make an award based on whether the lowest priced of the quotations having the highest past performance rating possible represents the best benefit to the government.

The non-price factors used to evaluate quotations are: Technical Qualifications and Past Performance.

Technical Qualifications

Quotes shall be evaluated in accordance with the criteria contained in the Statement of Work and on whether or not the technical qualifications meet the Government requirements. If any of the required information is missing, an Quoter will not be considered technically qualified. Technical qualifications will be evaluated for the following:

1. Previous experience in providing commercial HVAC maintenance services as referenced in the Statement of Work.
2. Contractor or subcontractor shall provide proof of the following documentation:
 - HVAC technician has EPA Section 608 Technician Certification – Type II (for high pressure refrigerants) or Universal certification.
 - Delta Controls partner/Authorized System Integrator (ASI) to access Delta Proprietary software (enteliWEB) certification or registration number.

- Technician with Suffolk County (NY) Restricted Plumber's License (oil burning equipment classification) or equivalent training and experience.

Past Performance

Past Performance will be evaluated for recent and relevant experience. To demonstrate recency, Quoters shall submit at least two (2) past performance questionnaires from projects they worked on within the last five (5) years. To demonstrate relevancy, the questionnaires should reference contracts that are similar in size, scope, and complexity. The questionnaires may include the same projects used to demonstrate experience in the technical qualifications section. If a Quoter does not submit the requested number of past performance questionnaires, it will be assumed they have limited, or no, recent and/or relevant experience.

The Quoter is to utilize Attachment B - Past Performance Questionnaire and submit copies with their quote. The Government also reserves the right to use past performance information available from other sources, such as Contractor Performance Assessment Reporting System (CPARS). It's at the Government's discretion to decide whether they confirm the accuracy of the Past Performance questionnaires and/or CPARS; however, if the Government chooses to confirm past performance, it will do so for all Quoters that submitted Past Performance information.

POST AWARD CONFERENCE: A Post-Award conference will be scheduled by the Contracting Officer to discuss the requirements with the Awardee and all other stakeholders.

CONTRACT CLAUSES AND SOLICITATION PROVISIONS:

DIGNITY CLAUSE

Respect for Headstones and Markers in National Cemeteries

Handling of Markers and Headstones

Every action by contractor personnel at a national cemetery must be performed with the special care, reverence, dignity, and respect that acknowledges the cemetery as the final resting place that commemorates the service and sacrifice that service members, Veterans and their families made for our Nation. Critically important is the awareness required of the Contractor employees of the remains buried in the grounds where the work is performed. The utmost care must be given to these remains and the headstones and flat grave markers that mark those gravesites and memorialize the service of individuals.

- Contractors cannot walk, stand, lean, sit or jump on headstones or markers. Nor can they drive over them.
- No tools, equipment or other items will be placed or leaned on headstones or markers.
- Use care not to scratch or damage markers in any manner.
- Contractor shall be responsible for replacing damaged headstones and markers and for restoring turf damaged during performance of this work.
- Additionally, should any activity result in the exposure and/or damage to any remains, container for remains (e.g., casket or urn), or outer burial container, the contractor must contact the COR, Director/Assistant Director, or Contracting Officer (CO) for guidance.

Any doubts as to proper procedures shall be brought to the attention of the COR, Director/Assistant Director, or CO for guidance or resolution. The contractor is required to discuss the guidance with employees and/or subcontractors.

(End of Clause)

**NOTE: "System updates may lag policy updates. The System for Award Management (SAM) may continue to require entities to complete representations based on provisions that are not included in this solicitation. Examples include 52.222-25, Affirmative Action Compliance, 52.204-26 Covered Telecommunications Equipment or Services-Representation, and 52.223-22 Public Disclosure of Greenhouse Gas Emissions and Reduction Goals-Representation. Contracting officers will rely on representations from offers based on provisions in the solicitation. Entities are not required to, nor are they able to, update their entity registration to remove these representations in SAM."*

ATTACHMENT A

STATEMENT OF WORK

Contract Term: The contract term shall be for **one (1) Base Year from date of award and four (4) Option Years**. All work shall be performed in strict accordance with specifications, schedules, terms, and conditions of the contract.

Description / Specifications / Work Statement

A.1 NCA MISSION

A.1.1 The National Cemetery Administration honors veterans with a final resting place and lasting memorials that commemorate their service to our Nation. National cemeteries are national shrines. The standards of maintenance, appearance and operational procedures performed by the Contractor at this cemetery shall reflect this nation's concern for those interned there. For this reason, the Contractor's strict adherence to the specifications shall be required and shall be essential.

A.2 SCOPE

A.2.1 The Contractor shall furnish all equipment, supplies, materials, labor, and supervision necessary to provide complete **HEATING, VENTILATION AND AIR CONDITIONING (HVAC) & BUILDING MANANGEMENT SYSTEM (BMS) SERVICES MAINTENANCE** for all equipment and software herein at Calverton National Cemetery. Contractor / Technician(s) must maintain:

- EPA Section 608 Technician Certification: Type II (for high pressure refrigerants) or Universal certification.
- Delta Controls® partner / Authorized System Integrator (ASI) to access to Delta's proprietary software (enteliWEB).
- Training and experience equivalent to that required for a Suffolk County Restricted Plumber's License (Oil Burning Equipment classification) and shall be certified in accordance with NFPA 31 standards.
- Comply with all OSHA safety training regulations relevant to HVAC work.

A.2.2 HVAC & BMS services / maintenance shall include proper preventative maintenance inspection on all equipment listed (see Appendix A), all necessary labor for maintenance and / or recalibration of parts / materials (including seasonal filter & belt replacements) necessary to keep equipment in good working condition, seasonal maintenance inspections on all equipment listed, all necessary labor for recalibration of materials needed to keep listed equipment in good working condition, peak performance maintenance for Delta Controls BMS for Administration Building, and provide all labor for critical failure service calls that may occur during cemetery's operational hours, from 7:00 a.m. until 4:30 p.m. Monday thru Friday, as well as, approximately two (2) Saturdays when requested by CO.

In the event of a permanent failure, any unrepairable damage that requires replacement of government owned equipment or parts not listed herein, will be acquired separate from this contract. The Government shall receive separate quotes. The Government does not guarantee that the Contractor for this requirement will be used for separate repair/replacement contracts. The Contractor's responsibility shall be limited to providing maintenance and support as outlined within the scope of this contract.

(a) Locations are as follows:

- i. Administrative Building: 8,236 sq. ft
- ii. Maintenance Building: 4,950 sq. ft
- iii. Committal Building: 2,014 sq. ft

A.3 SERVICE / MAINTENANCE REQUIREMENTS

A.3.1 Rooftop Units (RTU) System

(a) Two (2) preventative seasonal maintenance services per year (Spring & Fall)

i. Spring

- Replace all air filters and belts.
- Clean metal external mesh filters.
- Lubricate motors, pumps, and bearings.
- Check electrical controls and contacts for proper tightness and adjust as needed.
- Startup cooling and visually check for refrigerant leaks or oil residue.
- Check safety controls and adjust as needed.
- Check refrigerant pressures on all circuits and document super heat, subcooling, outdoor temperature, and discharge air temperature.
- Ensure all mixed air dampers are operating properly.
- Ensure contacts on relays/contactors aren't burnt.
- Perform ampere readings and voltage on all motors and document.
- Wash and clean condenser coils until unit operation is of 100%.
- Verify proper operation of all exhaust fans. This includes lubrication, belt tension, and vibrations from imbalance or bearing wear.
- Adjust belts—as needed.
- Check electrical controls and contacts and adjust as needed.
- Check cooling operation and visually check for refrigerant leaks.
- Check refrigerant pressures on all circuits and document super heat, subcooling, outdoor temperature, and discharge air temperature.
- Inspect and clean evaporator and condenser coils.
- Inspect drain pans and lines; clear any clogs.
- Test airflow rates and static pressure.
- Inspect economizers and damper operation.
- Check filter racks.
- Report any deficiencies.

ii. Fall

- Replace all air filters and belts.
- Clean metal external mesh filters.
- Lubricate motors, pumps, and bearings.
- Check electrical controls and contacts and adjust as needed.
- Start-up heating operation and visually check coils for damage.
- Check safety controls and adjust as needed.
- Adjust belts—as needed.
- Report any deficiencies.

(b) Annual Cleaning & Report

The Contractor shall complete an annual cleaning and submit an annual report, to be accomplished together with Spring preventative service or at another time deemed appropriate by Contractor.

- i. Report
 - BMS Software analysis reporting temperature trends & device evaluations to assess system performance and list any issues impacting functionality to ensure HVAC systems operate safely in the intended matter.
 - Temperature checks (maximum of five) required at locations determined by the COR or designee.
- ii. Cleaning
 - Thoroughly clean entire RTUs—all coils, drip pans, filters, and air ducts on an annual basis with HEPA vacuum and registered HVAC disinfectant to maintain efficiency, indoor air quality, and the longevity of equipment.
 - As necessary, apply EPA-registered mold inhibitor applicant to components of system, following the manufacturer's instructions. (Must be listed in FAR 52.223-9 that is required to be submitted with quote.)
 - Inspect ductwork for leaks or blockages.
 - Provide before and after photos of cleaning for annual report.

A.3.2 Boiler Heater Systems

(a) Annual Maintenance & Report

The Contractor shall perform comprehensive annual maintenance for all boiler systems to ensure optimal performance, safety, and efficiency in late summer or early fall together with Fall preventative service. The annual maintenance shall include the following tasks:

- i. Visual Inspection
 - Inspect the exterior of the boiler for signs of wear, corrosion, or damage.
 - Check for any leaks, cracks, or unusual conditions in the boiler and associated components.
 - Verify that safety valves, gauges, and controls are in good condition.
- ii. Component Testing and Calibration
 - Test and calibrate the safety and operating controls, including:
 - Pressure relief valves,
 - Low-water cut-off switches,
 - High-limit safety controls.
 - Verify proper operation of the burner and ignition system.
 - Measure and adjust combustion efficiency using a combustion analyzer (checking CO₂, CO and O₂ levels).
- iii. Inspection and Cleaning of Internal Components:
 - Open and inspect burners.
 - Clean burner orifice.
 - Check for warping, cracking or degradation of internal components.
 - Inspect and clean boiler tubes, headers, and other internal surfaces.
- iv. Mechanical and Electrical System Maintenance:
 - Lubricate pumps, motors, and other moving parts as required.
 - Inspect and tighten electrical connections as required.
 - Verify proper operation of fuel delivery systems, including gas valves, oil pumps, and filters.
- v. Pressure Vessel and Piping Inspection:
 - Inspect the boiler's pressure vessel for integrity and compliance with safety standards.
 - Examine piping, valves, and insulation for leaks, corrosion, and proper functionality.
- vi. Efficiency and Safety Testing:
 - Test the boiler system for proper startup, shutdown, and operational sequences.
 - Verify the integrity and performance of the chimney or venting system to ensure proper exhaust flow from air vent.

- Conduct a hydrostatic test, if necessary, to ensure pressure integrity.
- vii. Documentation and Reporting:
 - Provide a detailed report summarizing the annual maintenance activities, findings, and any recommendations for repairs or upgrades.
 - Include combustion test results and efficiency rating in the report.
 - Note any code violations or safety concerns that require immediate attention.

A.3.3 Building Management Software (BMS)

- (a) Delta Controls® BMS monitoring services to maintain listed workplace areas temperatures within Occupational Safety and Health Administration (OSHA) and General Services Administration (GSA) guidelines to reduce energy costs, while maintaining the highest level of employee comfort, safety, and productivity. Monthly email updates required regarding audit logs to identify / prevent / resolve on-going or persistent problems.
- i. Software services (enteliWEB) the following locations: ADMINISTRATION BUILDING ONLY [8,236 sq. ft]. All other buildings use standard thermostat temperature controls.
 - Network Equipment, Field Controllers, Device Maintenance & Evaluations
 - Annual maintenance routines and evaluation performed on network interfaces, routers, field controllers and field devices connected to the software system to confirm the system is operating per the user requirements specifications.
 - Provide annual sensor calibration, alarm configuration, depending on equipment/devices' needs, checking the battery backup circuit, scan times and verifying control loops.
 - Remote Support
 - Continuous monitoring & verification of accuracy of critical system components and identify any potential problems or component failure beyond calibration via email / telephone alerts of any system issues.
 - Email alerts to provide all off-normal conditions or events.
 - Remote support to assist troubleshooting software programs and any other issues with which you need assistance.
 - Perform setpoint modifications, schedule changes, controller reloads.
 - Identify controls vs. mechanical problem and recommend remedial action.
 - Perform any system overrides.
 - Minor programming changes.
 - Software Updates
 - Provide software updates to address issues, to address minor bugs discovered in the software, to improve the operation of hardware or peripherals and to add support for new models of equipment.

Performance & Work Hours: HVAC & BMS Services / Maintenance shall be provided in accordance with the following schedules:

- (a) Administration Building: Services/Maintenance shall be performed and completed Monday through Friday, between the hours of 8:00 a.m. until 4:30 p.m., unless requested otherwise due to holiday work schedule.
- (b) Maintenance Building/Area: Services/Maintenance shall be performed and completed Monday through Friday, between the hours of 8:00 a.m. until 4:00 p.m., unless requested otherwise due to holiday work schedule.
- (c) Committal Building: Services/Maintenance shall be performed and completed Monday through Friday, between the hours of 7:00 a.m. until 9:00 a.m. and / or 3:00 p.m. to 4:30 p.m., unless requested otherwise due to holiday work schedule.

A.4 CONTRACT MANAGEMENT

A.4.1 GOVERNMENT REPRESENTATIVES

- (a) Contracting Officer: All administrative functions remain with the VA Contracting Officer. Any modifications to the contract, including those involving no-cost changes, increases, and decreases in cost or level of services provided, termination or extension of the contract (in part or in whole) and decisions concerning claims or disputes, must be authorized in writing by the Government Contracting Officer.
- (b) Contracting Officer Representative (COR): The Contracting Officer reserves the right to designate representatives to act for him/her in furnishing technical guidance and advice or generally supervises the work to be performed under this contract. Such designation will be in writing and will define the scope and limitations of the designee's authority. A copy of the designation(s) shall be furnished to the Contractor at time of award.

A.4.2 COMMUNICATION & COORDINATION of WORK with COR: Communication with the COR is strongly encouraged. Maximum coordination with the Government is required to ensure work activity and noise do not disturb burial services. Burial activities at NCA shall take precedence over contract work activities. Trucks and workmen are prohibited from passing through the service area during this period.

A.5 FEDERAL HOLIDAYS

All work under this contract will be done during normal business days and daylight hours unless otherwise required. The following is a list of Federal holidays:

New Year's Day	Labor Day
Martin Luther King's Birthday	Columbus Day
President's Day	Veterans Day
Memorial Day	Thanksgiving Day
Juneteenth	Christmas Day
Fourth of July	

A.6 RESPONSIBILITIES

A.6.1 INSURANCE, LICENSES & PERMITS

- (a) The Contractor shall obtain all necessary licenses and permits necessary to perform the work involved and will take all precautions necessary to protect persons and property from injury or damage during the performance of this contract. Contractor is responsible for any injury or damage during the performance of this contract including injury to himself/herself, his/her employees, or others.
- (b) The Contractor shall maintain personal liability and property damage insurance to align with State of New York and/or those listed in FAR 52.228-5, whichever is more.

A.6.2 MISCELLANEOUS

- (a) The Contractor shall be responsible for maintaining satisfactory standards of personnel conduct and work performance.
- (b) The Contractor shall also be responsible for training and safety precautions for contractor employees performing work under these specifications. OSHA standards shall be observed by the Contractor in all work performed. Appropriate safety equipment shall be furnished by the Contractor-to-contractor personnel and shall be used as prescribed by OSHA standards, including hard hats, safety shoes, safety glasses, and hearing protection devices.

- (c) Contractor shall be liable for any damage to personal or public property that occurs during the performance of this contract that is caused by him/her or his/her employee's fault or negligence.
- (d) The Contractor shall preserve and protect all structures, equipment, roads, and vegetation (such as trees, shrubs, & grass) on or adjacent to the work site, which is not to be removed and which does not interfere with the work required under this contract. The Contractor will take extreme precaution when servicing HVAC and BMS systems to not hit, damage, mark and/or knock any buildings/structures.
- (e) The Contractor shall protect from damage all existing improvements and utilities at or near the work site and on adjacent property of a third party. The Contractor shall immediately notify the COR of any such occurrence and repair any damage to those facilities, including those that are the property of a third party, resulting from failure to comply with the requirements of this contract or failure to exercise reasonable care in performing the work. If the Contractor fails or refuses to repair the damage promptly, the Contracting Officer may have the necessary work performed and charge the cost to the Contractor.

ATTACHMENT B

PAST PERFORMANCE QUESTIONNAIRE

INSTRUCTIONS: Offerors must identify previous federal, state, and local government and/or private contracts that they have completed and that are similar to the contract being evaluated. List at least two (2) prior contracts that you have performed on in the last five (5) years. One contract reference per form; form must be duplicated for subsequent references. **Any subcontractors to be used shall also include two (2) forms each.**

Contractor (you) Information:

Name: _____

Address: _____

Telephone Number: _____

E-mail: _____

Contract Information:

Name of company/agency you provided service for: _____

Contract Number: _____

Type of Contract: _____

Contract Dollar Value: _____

Date of Award: _____

Status: Completed, Yes _____ No _____ If not completed, projected completion date _____

If not completed, why? _____

Were you the Prime? _____ were you the Sub? _____

Point of Contact Information for the company/agency you serviced:

Name of the Contract Person & their position: _____

Address: _____

Telephone Number: _____

E-mail: _____

Description of Supply/Service(s) provided, location & relevancy of work:

Complexity of Product/Service, if any:

Percentage of Work completed by your company/by subcontractor:

ATTACHMENT C

PRICE SCHEDULE

The schedule price for each CLIN should be all-inclusive, including all supervision, labor (IAW attached wage determination), equipment, materials, and supplies. Pricing shall be FOB Destination and in accordance with the Statement of Work and Terms and Conditions of this Combined Synopsis/Solicitation.

Quoters shall enter the unit price and total amounts for each CLIN as indicated in the schedule below. In the event the Quoter did not add the total estimated price correctly, the Government will utilize the unit price(s) to compute the correct total estimated price.

30390 - Photo-Optics Technician	32.45
30395 - Radiation Control Technician	39.68
30461 - Technical Writer I	32.85
30462 - Technical Writer II	40.18
30463 - Technical Writer III	48.61
30491 - Unexploded Ordnance (UXO) Technician I	34.51
30492 - Unexploded Ordnance (UXO) Technician II	41.75
30493 - Unexploded Ordnance (UXO) Technician III	50.04
30494 - Unexploded (UXO) Safety Escort	34.51
30495 - Unexploded (UXO) Sweep Personnel	34.51
30501 - Weather Forecaster I	35.94
30502 - Weather Forecaster II	43.72
30620 - Weather Observer, Combined Upper Air Or Surface Programs	(see 2) 29.42
30621 - Weather Observer, Senior	(see 2) 32.45
31000 - Transportation/Mobile Equipment Operation Occupations	
31010 - Airplane Pilot	41.75
31020 - Bus Aide	28.36
31030 - Bus Driver	36.52
31043 - Driver Courier	21.21
31260 - Parking and Lot Attendant	17.08
31290 - Shuttle Bus Driver	21.44
31310 - Taxi Driver	17.31
31361 - Truckdriver, Light	22.53

31362 - Truckdriver, Medium	23.86
31363 - Truckdriver, Heavy	31.36
31364 - Truckdriver, Tractor-Trailer	31.36
99000 - Miscellaneous Occupations	
99020 - Cabin Safety Specialist	20.36
99030 - Cashier	18.74
99050 - Desk Clerk	20.11
99095 - Embalmer	39.23
99130 - Flight Follower	34.51
99251 - Laboratory Animal Caretaker I	21.53
99252 - Laboratory Animal Caretaker II	22.87
99260 - Marketing Analyst	46.81
99310 - Mortician	38.57
99410 - Pest Controller	23.29
99510 - Photofinishing Worker	27.57
99710 - Recycling Laborer	33.83
99711 - Recycling Specialist	38.72
99730 - Refuse Collector	31.43
99810 - Sales Clerk	17.96
99820 - School Crossing Guard	21.03
99830 - Survey Party Chief	38.96
99831 - Surveying Aide	22.87
99832 - Surveying Technician	30.18
99840 - Vending Machine Attendant	28.92
99841 - Vending Machine Repairer	34.29
99842 - Vending Machine Repairer Helper	28.92

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors, applies to all contracts subject to the Service Contract Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is the victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

Note: Executive Order 13658 generally applies to contracts subject to the Service Contract Act that were awarded on or between January 1, 2015 and January 29, 2022, and that have not been renewed or extended on or after January 30, 2022. If a contract is subject to Executive Order 13658, the contractor must pay all covered workers at least \$13.30 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in 2025. The applicable Executive Order minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under Executive Order 13658 is available at www.dol.gov/whd/govcontracts.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: \$5.55 per hour, up to 40 hours per week, or \$222.00 per week or \$962.00 per month

HEALTH & WELFARE EO 13706: \$5.09 per hour, up to 40 hours per week, or \$203.60 per week, or \$882.27 per month*

*This rate is to be used only when compensating employees for performance on an SCA-

covered contract also covered by EO 13706, Establishing Paid Sick Leave for Federal Contractors. A contractor may not receive credit toward its SCA obligations for any paid sick leave provided pursuant to EO 13706.

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years, 4 weeks after 15 years, and 5 weeks after 25 years.

Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of twelve paid holidays per year: New Year's Day, Martin Luther King Jr's Birthday, Washington's Birthday, Good Friday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: This wage determination does not apply to any individual employed in a bona fide executive, administrative, or professional capacity, as defined in 29 C.F.R. Part 541. (See 41 C.F.R. 6701(3)). Because most Computer Systems Analysts and Computer Programmers who are paid at least \$27.63 per hour (or at least \$684 per week if paid on a salary or fee basis) likely qualify as exempt computer professionals under 29 U.S.C. 213(a)(1) and 29 U.S.C. 213(a)(17), this wage determination may not include wage rates for all occupations within those job families. In such instances, a conformance will be necessary if there are nonexempt employees in these job families working on the contract.

Job titles vary widely and change quickly in the computer industry, and are not determinative of whether an employee is an exempt computer professional. To be exempt, computer employees who satisfy the compensation requirements must also have a primary duty that consists of:

(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;

(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;

(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or

(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

Any computer employee who meets the applicable compensation requirements and the above duties test qualifies as an exempt computer professional under both section 13(a)(1) and section 13(a)(17) of the Fair Labor Standards Act. (Field Assistance Bulletin No. 2006-3 (Dec. 14, 2006)). Accordingly, this wage determination will not apply to any exempt computer employee regardless of which of these two exemptions is utilized.

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

**** HAZARDOUS PAY DIFFERENTIAL ****

An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder.

All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving re-grading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

**** SERVICE CONTRACT ACT DIRECTORY OF OCCUPATIONS ****

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition (Revision 1), dated September 2015, unless otherwise indicated.

**** REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE, Standard Form 1444 (SF-1444) ****

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable

relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination (See 29 CFR 4.6(b)(2)(i)). Such conforming procedures shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees (See 29 CFR 4.6(b)(2)(ii)). The Wage and Hour Division shall make a final determination of conformed classification, wage rate, and/or fringe benefits which shall be paid to all employees performing in the classification from the first day of work on which contract work is performed by them in the classification. Failure to pay such unlisted employees the compensation agreed upon by the interested parties and/or fully determined by the Wage and Hour Division retroactive to the date such class of employees commenced contract work shall be a violation of the Act and this contract. (See 29 CFR 4.6(b)(2)(v)). When multiple wage determinations are included in a contract, a separate SF-1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order the proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the U.S. Department of Labor, Wage and Hour Division, for review (See 29 CFR 4.6(b)(2)(ii)).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour Division's decision to the contractor.
- 6) Each affected employee shall be furnished by the contractor with a written copy of such determination or it shall be posted as a part of the wage determination (See 29 CFR 4.6(b)(2)(iii)).

Information required by the Regulations must be submitted on SF-1444 or bond paper.

When preparing a conformance request, the ""Service Contract Act Directory of Occupations"" should be used to compare job definitions to ensure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination (See 29 CFR 4.152(c)(1))."
