- (1) ☐ Are, ☐ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;
- (2) ☐ Have, ☐ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined*. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment*. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples*. (A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

Evaluation Factors for Award

ADDENDUM TO FAR 52.212-1, INSTRUCTIONS TO OFFERORS - COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES:

Paragraph (c) is changed to read: Period for acceptance of offers. The Offeror agrees to hold the prices in its offer firm for 90 calendar days from the date specified for receipt of offers unless another time period is specified in an addendum to the solicitation.

(End of Addendum to 52.212-1)

ADDENDUM 52.212-2 EVALUATION - COMMERCIAL PRODUCTS AND COMMERCIAL SERVICE:

a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The basis of award will be the Lowest Priced Technically Acceptable offer. Offerors must receive a rating of Technically Acceptable in all factors/subfactors for their overall quote to be determined Technically Acceptable.

By submission of its offer, the offeror accedes to all solicitation requirements, including terms and conditions, and technical requirements.

The Government intends to make award without discussions, unless the Contracting Officer determines that discussions are necessary. Offerors should provide their most favorable prices in their initial offers.

Non-Price Evaluation Factors: The contractor shall provide all information required for the Government POC to evaluate the quotes for compliance with the requirements detailed in the Performance Work Statement (PWS). Information includes, but is not limited to proof of laboratory certification, cover sheet, capability statement, and past performance/testimonials documentation.

Price Evaluation Factor: Contractor shall complete Standard Form (SF) 1449, blocks 30a through 30c and price each Subline Item Number (SLIN). The price shall include travel, shipping, personnel, and materials required for the contractor to deliver the requirements stated in the PWS. The contractor shall provide all information required for the Government POC to evaluate the quotes for compliance with the requirements detailed in the PWS. Information includes, but is not limited to price documentation, historical sales to non-governmental or governmental entities of same or similar services, and information that explains price escalations if any.

Quotes will be evaluated initially independently of the price to determine the Offerors' ability to meet the Government's requirement set forth in the solicitation. The Government may make a final rating determination based on the quote as submitted without requesting any further information. For all quotes determined to be Technically Acceptable, the offer providing the lowest fair and reasonable price will receive the contract award.

Offerors' quotes will receive an overall rating based on the following:

- i. Technically Acceptable:** Offeror meets all requirements or technical specifications and has submitted all documentation requested in any technical evaluation criteria and all documentation meets the standard set forth in the solicitation.
- ii. Technically Unacceptable:** Contractor fails to meet all requirements or technical specifications or has failed to comply in submitting requested documentation in any technical evaluation criteria or the submitted documentation fails to meet the standard set forth in the solicitation.

b) Options: The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
