Evaluation Factors for Award: The Government intends to award to the lowest priced quote that is technically acceptable. In accordance with 13.106-2(b)(3), the Government is not required to establish a competitive range, conduct discussions, or score quotes. Consistent with simplified acquisition procedures, the evaluation process is as follows:

1. Price: The Government will evaluate all quotes for price (subject to acceptability IAW SOW), ranking them from lowest to highest total evaluated price. The total evaluated price is the sum of all Contract Line Items and is highlighted green in Attachment 3 – Pricing Schedule.
2. Technical Capability: The Government will evaluate the lowest priced offeror's technical capability statement/design plan to ensure it meets the requirements set forth in the

attached Statement of Work. If the offerors response to the technical capability document is determined NOT to meet the Government's requirement, the evaluation will continue to the next lowest quote until one is determined to meet the Government's requirement.
