REQUIRED DELIVERY SCHEDULE

Name of Offeror or Contractor:

CLIN 0001AA35 EA450 DARO

The Government will evaluate equally, as regards time of delivery, offers that propose delivery of each quantity within the applicable delivery period specified above. Offers that propose delivery that will not clearly fall within the applicable required delivery period specified above, will be considered nonresponsive and rejected. The Government reserves the right to award under either the required delivery schedule or the proposed delivery schedule, when an offeror offers an earlier delivery schedule than required above. If the offeror proposes no other delivery schedule, the required delivery schedule above will apply.

(b) Attention is directed to the Contract Award provision of the solicitation that provides that a written award or acceptance of offer mailed, or otherwise furnished to the successful offeror, results in a binding contract. The Government will mail or otherwise furnish to the offeror an award or notice of award not later than the day award is dated. Therefore, the offeror should compute the time available for performance beginning with the actual date of award, rather than the date the written notice of award is received from the Contracting Officer through the ordinary mails. However, the Government will evaluate an offer that proposes delivery based on the Contractor's date of receipt of the contract or notice of award by adding

- (1) five calendar days for delivery of the award through the ordinary mails, or
- (2) one working day if the solicitation states that the contract or notice of award will be transmitted electronically. (The term "working day" excludes weekends and U.S. Federal holidays.) If, as so computed, the offered delivery date is later than the required delivery date, the offer will be considered nonresponsive and rejected.

SPECIAL CONTRACT REQUIREMENTS

H-1. ENG CHG PROPOSAL, VALUE ENG CHG PROPOSAL, REQUEST FOR VARIANCE, ENG RELEASE RECORDS, NOTICE OF REVISION, AND SPECIFICATION CHG NOTICE PREPARATION AND SUBMISSION INSTRUCTIONS

1. Contractor initiated Engineering Change Proposals (ECPs), Value Engineering Change Proposals (VECPs), and Requests for Variance (RFVs), collectively referred to as "proposals", shall be prepared, submitted and distributed in accordance with paragraphs 2, 3 and 4 below except as specified in paragraph 5 below.

Format.

a. Class 1 ECPs require the "Long Form Procedure" for documenting the change and describing the effects of the change on the suitability and supportability of the Configuration Item (CI). Class I ECPs should be limited to those that are necessary or offer significant benefit to the Government. Class I ECPs are those that affect the performance, reliability, maintainability, survivability, weight, balance, moment of inertia, interface characteristics, electromagnetic characteristics, or other technical requirements in the specifications and drawings. Class I ECPs also include those changes that affect Government Furnished Equipment, safety, compatibility, retrofit, operation and maintenance manuals, interchangeability, substitutability, replaceability, source control specifications and drawings, costs, guarantees or warranties, deliveries, or schedules. Class II ECPs are those that do not affect form, fit and function, cost, or schedule of the system CI and do not meet the other criteria described above for Class I ECPs.

b. Long Form Procedure: Class I changes to the CI require that DD Form 1692, pages 1 through 7 (as applicable), be prepared. Use of this procedure assures that all effects of the change on the CI are properly addressed and documented to the necessary detail to allow proper evaluation of the proposed change.

c. Short Form Procedure: ECPs and VECPs, which meet the requirements of Class II ECPs, shall be prepared using DD Form 1692 (page 1 only). Supplemental pages may be used with the form as necessary. The responsible Contract Management Office (CMO) will enter the appropriate data in Block 5 "Class of ECP", Block 6 "Priority", and Block 8 "Justification Codes."

d. The Contractor shall not manufacture items for acceptance by the Government that incorporate a known departure from requirements, unless the Government has approved an RFV. RFVs shall be prepared using DD Form 1694.

e. Each ECP and RFV shall be accompanied by a written and signed evaluation prepared by the responsible Defense Contract Management Agency (DCMA) technical representative. The DCMA written evaluation shall be considered part of the ECP/RFV proposal.

f. Classification of RFVs.

(1) Major RFVs. RFVs written against CIs shall be designated as major when the RFV consists of acceptance of an item having a nonconformance with contract or configuration documentation involving health; performance; interchangeability; reliability; survivability; maintainability; effective use or operation; weight; appearance (when a factor); or when there is a departure from a requirement classified as major in the contractual documentation.

(2) Critical RFVs. RFVs written against CIs shall be designated as critical when the RFV consists of acceptance of an item having a nonconformance with contract or configuration documentation involving safety or when there is a departure from a requirement classified as critical in the contractual documentation.

(3) Minor RFVs. RFVs written against CIs shall be designated as minor when the RFV consists of acceptance of an item having a nonconformance with contract or configuration documentation which does not involve any of the factors listed above in paragraphs f(1) or g(2), or when there is a departure from a requirement classified as minor in the contractual documentation.

g. Proposals shall include sufficient technical data to describe all changes from existing contract requirements.

h. Proposals shall include sufficient justification for making the change, including a statement of contract impact, if the change is not authorized.

i. Proposals for ECPs shall set forth a "not to exceed" price and delivery adjustment acceptable to the Contractor if the Government subsequently approves the proposal. If approved, the equitable increase shall not exceed this amount.

j. Times allowed for technical decisions for ECP and RFV proposals will be worked out via mutual agreement between the Contractor and the Government.

k. The Contractor shall submit, concurrent with the ECP, a separate DD Form 1696, "Specification Change Notice" (SCN), for each specification that would require revision if the ECP were approved.

l. Proposals for VECPs shall set forth a "not less than" price and delivery adjustment acceptable to the Contractor if the Government subsequently approves the proposal. If approved, the savings shall not be less than this amount.

Proposals may be prepared in a different format, submitted using a different submittal process or distributed in a different manner than specified in paragraphs 2, 3 and 4 above, so long as the alternate approach is in accordance with a Government approved configuration management plan governed by this contract or the PCO authorizes the alternate format, submittal, or distribution process.

Government Acceptance. Acceptance of a proposal by the Government shall be affected by the issuance of a change order or execution of a supplemental agreement incorporating the proposal into the contract unless the PCO authorizes another method of acceptance. The Government will notify the Contractor in writing if a proposal is determined to be unacceptable.

H-2. WOOD PACKING MATERIALS REQUIREMENTS.

A. Wood packaging material (WPM) means wood pallets, skids, load boards, pallet collars, wooden boxes, reels, dunnage, crates, frame and cleats. The definition excludes materials that have undergone a manufacturing process, such as corrugated fiberboard, plywood, particleboard, veneer, and oriented strand board (OSD).

B. All Wood Packaging Material (WPM)) acquired by DOD must meet requirements of International Standards for Phytosanitary Measures (ISPM) 15, "Guidelines for Regulating Wood Packaging Materials International Trade." DOD shipments inside and outside of the United States must meet ISPM 15 whenever WPM is used to ship DOD cargo.

(c) The Government is not by this request soliciting, nor is the Government liable for cost incurred by the offeror in preparing or developing modifications, deviations, waivers, or other changes to drawings or part number(s). Furthermore, this request does not authorize changes to the drawing(s) or part number(s) for this acquisition, another contract, or for any other purpose. Offerors performing any contract awarded as a result of this solicitation must comply with the drawing(s) and specifications as set forth herein, unless this solicitation is amended or any resulting contract.

H-4. ELECTRONIC FABRICATION: REQUIREMENTS FOR ELECTRICAL AND ELECTRONIC ASSEMBLIES (AVN & MSL)

1. Notwithstanding any other provision contained in any part of this contract to the contrary, the minimum requirements/standards for soldering electrical and electronic assemblies shall be the non-military joint industry standard, ANSI/J-STD-001, Class 3. The revision of ANSI/J-STD-001 in effect on the effective date of the contract shall govern the hardware produced hereunder. A copy of ANSI/J-STD-001 may be obtained from the Institute for Interconnecting and Packaging Electronic Circuits (IPC), 3000 Lakeside Drive, 105N, Bannockburn, IL, 60015, <https://www.ipc.org>.

2. The contractor shall establish and maintain an electronic/electrical parts control program and shall maintain and make available to the Government records and data which will provide visibility and traceability of all parts used in the production of the equipment under this contract. This selection of parts shall not be construed to relieve the contractor of meeting specified performance of the end item in which the part is used.

3. The Technical Data Package (TDP) shall serve as the baseline Program Parts Selection List (PPSL) and the parts and sources listed therein are the standard parts and sources. A Non-Standard Part is defined as a part or source other than that cited in the PPSL. When the contractor desires to use a part or source other than those cited in the PPSL, the change must be approved by the Government via a Request for Deviation (RFD) as defined elsewhere in this contract. Failure on the part of the contractor to submit such RFDs may result in the replacement of the nonstandard part with the standard part by the Government at the contractor's expense for all affected items.

Data need not be furnished for nonstandard parts covered by documents listed in the Department of Defense Index of Specifications and Standards (DoDISS) or Standardized Military Drawings (SMD).

5. The Contractor shall maintain a Lead Free Control Plan (LFCP) and make available to the Government upon request. The requirement for a Lead Free Control Plan shall be flowed down to suppliers of equipment that may include lead-free materials. The LFCP shall follow the guidelines set forth in GEIA-STD-0005-1, "Performance Standard for Aerospace and High Performance Electronic Systems Containing Lead-Free Solder" or its equivalent. In addition, the LFCP shall also include tin whisker mitigation plans in accordance with GEIA-STD-0005-2, "Standard for Mitigating the Effects of Tin Whiskers in Aerospace and High Performance Electronic Systems" or its equivalent, at control level 2C or equivalent. The Contractor should include in the LFCP any special design considerations, manufacturing process controls, test and qualification requirements, quality inspection and screening, marking and identification, maintenance and repair processes, and other steps taken to mitigate risk.

- (c) Within 60 calendar days after the Government receives the PLT sample(s), the Contracting Officer will notify the Contractor, in writing, of the acceptance or rejection of the quality verification sample(s). The notice of acceptance shall not relieve the Contractor from complying with all requirements of the specifications and all other terms and conditions of this contract. A notice of rejection shall cite reasons for the rejection.
- (d) If the PLT sample(s) is/are rejected, the Government may choose to have the contractor remedy the non-conformances found on the product by rework when appropriate, or require the contractor to provide newly manufactured product for inspection. The Contractor, upon Government request, shall make any necessary changes to meet the requirements of this contract. The Contractor shall furnish any reworked or newly manufactured PLT sample(s) to the Government as appropriate, under the terms and conditions and within the time specified by the Government. The Government reserves the right to require an equitable adjustment of the contract price for any extension of the delivery schedule and/or for any additional costs to the Government related to these inspection retests.
- (e) The Government reserves the right to reject any lot in which one or more defective units of production are found. The Government, at its discretion, may elect to perform a 100 percent screen on a lot and accept only those items that are conforming to all contract requirements. Under no circumstances shall the Government accept or be obligated to accept known defective hardware as a part of any lot.

H-6. DEFENSE PRIORITY AND ALLOCATIONS SYSTEM (DPAS) RATED AWARDS

Defense Priorities and Allocations System (DPAS) Rated Awards (JUNE 2025)

A DPAS rated order indicates the priority the contractor must give to the performance of the award. There are two priority ratings: "DX" and "DO". All "DX" rated orders have equal priority with each other and take preference over "DO" rated orders and unrated orders. All "DO" rated orders have equal priority with each other and take preference over unrated orders. (see 15 CFR 700.11 and DoDM 4400.1-M).

Mandatory Contractor Performance Scheduling

A contractor must schedule operations, including the acquisition of all needed production items, in a timely manner to satisfy the delivery requirements of each DPAS rated order. Additionally, contractors are required to use DPAS rated orders with their U.S. suppliers to obtain items needed to fill rated orders (15 CFR 700.15). Contractors may also use DPAS rated orders to obtain replacements of inventoried items used to fill rated orders (see 15 CFR 700.17(b)). Modifying production or delivery schedules is necessary only when required delivery dates for a rated order cannot otherwise be met. Since "DX" indicates the highest rated order, the manufacturer will schedule its production before processing other lower or unrated orders. "DX" rated orders must be given production preference over "DO" rated orders and unrated orders if necessary to meet required delivery dates, even if this requires the diversion of items being processed or ready for delivery against unrated orders. Similarly, "DO" rated orders must be given preference over unrated orders. If an accepted rated order of equal priority status conflicts with other accepted rated orders of equal priority status, the contractor must prioritize the rated orders in the sequence in which the rated orders are to be delivered or performed (see 15 CFR 700.14).

Contractor Acceptance of a DPAS rated order:

[Contractors receiving an award that includes a DPAS rating shall advise DLA via the post award mailbox (HYPERLINK "mailto:DLAHSVPostAwardTeam@dla.mil"DLAHSVPostAwardTeam@dla.mil) , if they cannot perform in accordance with the requirements of the applied DPAS rating. When rejecting an order in full, communication to the contracting officer must include a detailed reason for rejection. If the order can be fulfilled at a later date, the contractor must provide, a) the earliest possible delivery date, b) a detailed reason why the awarded delivery date cannot be met (e.g. reason should not simply state a production delay) and, c) an offer to accept the order based on that date. Contractors must advise DLA within fifteen (15) working days after receipt of a "DO" rated order, and within ten (10) working days after receipt of a "DX" rated order if they cannot perform in accordance with the DPAS rating. Contractors that do not contact DLA are self-attesting that they acknowledge receipt of the award and will conform to the DPAS rating requirement. If the prescribed response time has passed and the contractor learns that shipment or performance will be delayed, the contractor is still required to notify DLA immediately.

Special Priority Assistance:

Preferential scheduling is a must for DPAS rated orders (see 15 CFR 700.14). If a contractor learns that a shipment or performance will be delayed after the allotted response time has passed or any other issue arises that will affect deliveries during the duration of the contract, the contractor is required to notify DLA immediately through the use of Form BIS-999, Special Priorities Assistance (SPA). Deviations from schedules cannot be approved without the completion and submission of this form. Once submitted, DLA and its customers will discuss the SPA for approval. The Department of Commerce requires an approved BIS-999 prior to reprioritizing DPAS rated orders and its schedules (See 15 CFR 700.50). Please contact DLA post award for any SPA questions or concerns.

Evaluation Criteria

1. Minimum technical requirements.

To be technically acceptable and thus eligible for award, a proposal must conform to ALL solicitation requirements, such as terms and conditions, representations and certifications, and technical requirements provided within all sections of this solicitation and/or within its attached addenda. Proposals receiving a technical rating of "Unacceptable" will be ineligible for award.
2. Price.

In addition to meeting the solicitation's technical and quantity increment or range requirements above and cost and pricing requirements below, the Government will evaluate a proposal's pricing for reasonableness. Evaluation of a proposal's pricing will not obligate the Government to order the estimated quantities or to distribute orders in the manner evaluated. The Government may reject a proposal as "Unacceptable", if its pricing is determined to be materially unbalanced.
3. Cost and Pricing Data.

Offerors must provide all cost or pricing information required by FAR 15.4. Failure of a proposal to provide cost or pricing information required by FAR 15.4 will result in said proposal being deemed Unacceptable, and thus, ineligible for award.

Basis of Award

- (a) Lowest Priced Technically Acceptable (LPTA). In acquisitions in which more than one proposal is received, proposals will be evaluated using the Lowest Priced Technically Acceptable (LPTA) evaluation procedure to make a best value award decision. In these situations, the Government will award to the offeror which submits a technically acceptable proposal, with the lowest overall price. Because the Government intends to make an award based on the initial proposals, offerors are encouraged to make their best offers, initially; however, if the deemed necessary, the Government reserves the right to enter discussions.
- (b) Technical Acceptability. To be technically acceptable, a proposal must conform to ALL solicitation requirements, such as terms and conditions, representations and certifications, and technical requirements provided within the solicitation or within its
