(End of Addendum to 52.212-1)

ADDENDUM 52.212-2 EVALUATION - COMMERCIAL PRODUCTS AND COMMERCIAL SERVICE:

a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The basis of award will be the Lowest Priced Technically Acceptable offer. Offerors must receive a rating of Technically Acceptable in all factors/subfactors for their overall quote to be determined Technically Acceptable.

By submission of its offer, the offeror accedes to all solicitation requirements, including terms and conditions, and technical requirements.

The Government intends to make award without discussions, unless the Contracting Officer determines that discussions are necessary. Offerors should provide their most favorable prices in their initial offers.

Non-Price Evaluation Factors: The contractor shall provide all information required for the Government POC to evaluate the quotes for compliance with the requirements detailed in the SOW. Information includes, but is not limited to cover sheet, capability statement, certifications, and past performance /testimonials documentation.

Price Evaluation Factor: Contractor shall complete Standard Form (SF) 1449, blocks 30a through 30c and price each Contract Line-Item Number (CLIN). The price shall include travel, shipping, personnel, and materials required for the contractor to deliver the requirements stated in the SOW. The contractor shall provide all information required for the Government POC to evaluate the quotes for compliance with the requirements detailed in the SOW. Information includes, but is not limited to price documentation, historical sales to non-governmental or governmental entities of same or similar products or services, and information that explains price escalations if any.

Quotes will be evaluated initially independently of the price to determine the Offerors' ability to meet the Government's requirement set forth in the solicitation. The Government may make a final rating determination based on the quote as submitted without requesting any further information. For all quotes determined to be Technically Acceptable, the offer providing the lowest fair and reasonable price will receive the contract award.

Offerors' quotes will receive an overall rating based on the following:

i. Technically Acceptable: Offeror meets all requirements or technical specifications and has submitted all documentation requested in any technical evaluation criteria and all documentation meets the standard set forth in the solicitation.

ii. Technically Unacceptable: Contractor fails to meet all requirements or technical specifications or has failed to comply in submitting requested documentation in any technical evaluation criteria or the submitted documentation fails to meet the standard set forth in the solicitation.

b) Options: The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
